Studies and Research for REGULEZE™

[Studies Verify Fibersol®-2 Helps Control Satiety](#)

Results of clinical studies conducted by Dr. Suzanne Hendrich at Iowa State University confirm that Fibersol®-2 digestion resistant maltodextrin, a soluble corn fiber, may impact satiety by decreasing hunger, prolonging satiation or increasing satiety signals from the gut.

[Gut bacteria impact intestinal and behavioural symptoms in IBS patients, study finds](#)

Research from McMaster University has found that bacteria in the gut impacts both intestinal and behavioural symptoms in patients suffering from irritable bowel syndrome (IBS), a finding which could lead to new microbiota-directed treatments.
